**Ronelle Hills** is the head designer and buyer for Seigerman's Furniture and Interior Design Center. With a degree in Interior Design from the Fashion Institute Of Technology plus 25 years of experience as an interior designer, she has been a staple of the company for over 15 years and responsible for keeping Seigerman's on trend. Her instinct for choosing the best furniture, accessories, lighting, and rugs is proven when customers walk through the showroom and the design center, and she finds it rewarding when she can bring those ideas to her clients. Her expertise in space planning, accessorizing and blending styles, fabrics, and colors help her to create a space that expresses her clients' unique style. Ronelle truly loves her career and always looks forward to each new project. She is very passionate about her work and is always up for a challenge whether creating an entire house or just one room.

**Jennifer Ruggia** has been an active member of the home furnishings and interior design industry for 15 years. Her love of the business coupled with a degree in Fashion Merchandising allows her to create a vision of interior design that is completely original. "Both are grounded in trends, colors, and textures," she says, "things that make you feel great about yourself and the spaces where you spend your time." By listening to her clients' needs, she strives to help them discover their own style and create a home that is comfortable, functional and fashionable.

**Linda Lombardo** brings Seigerman's 14 years of experience as an interior designer. While she is able to oversee the overall design for her clients' projects, she specializes in the details, which include custom upholstery and window treatments all the way through artwork and accessories to complete each room. She feels that it is important to work with each client closely to create a space that works well and will be loved for years to come. Her dedication ensures each detail of every project is completed to perfection.

# HOW SEIGERMAN'S FURNITURE & DESIGN CENTER CREATES LUXURY AT AFFORDABLE PRICES

Decorating on your own could be a mind-numbing experience. With an endless choice of styles, colors, fabrics, woods, flooring, and lighting available, even someone who knows what they like could feel overwhelmed. Those who work in the trade have always relied on design centers who were able to provide all the furnishings and accessories they needed as well as the skilled craftspeople required to complete the job.

Up until recently, design centers were open exclusively to interior design professionals. Seigerman's began offering their services to their consumers for more of a one-stop shopping and design experience. This is what inspired Seigerman's Furniture & Interior Design Center to open its second floor to the public, allowing a new way to shop for home furnishings and accessories. It was renovated with the homeowner in mind to serve the growing Long Island/New York Tri-State market's interest and appreciation for quality design and home furnishings. Those who work in the trade have also welcomed this approach as it gives them a more realistic view of today's customer.

## ADVANTAGES OF USING A DESIGN CENTER

### One Place To Do It All

Leave it in our hands and we will do it all; everything from the room layout and ordering the furniture, flooring and window treatments, to finding craftspeople to do the installation and painting. This saves you time and money.

### Larger Section, Better Prices

Seigerman's features many of the leading furniture manufacturers in our showroom due to our longevity in the industry. Being a design center as well allows us to work off volume pricing extending the factories' discounts to our consumers. Due to the size of the showroom and the large amount of vendors associated with Seigerman's and the Design Center, additional products can be purchased from catalogs, magazines or items seen in other showrooms. The buying power is endless.

### Experienced In-House Interior Designers

Whether you are buying one piece of furniture or renovating an entire home, with over a hundred years of home design experience our interior designers and sales staff will help you design the room or home of your dreams perfect for your space and budget.

### Skilled Professionals:

In addition to our Interior Designers, our staff includes licensed and insured carpenters, installation experts, seamstresses, electricians, painters, plumbers and more. WE guarantee they will do a great job as it's OUR responsibility to the client.

### Accessories Galore:

There is no better place to choose accessories and wall art for your home. Everything showcased in our 30,000 square foot showroom is available for purchase. Our design staff would help stage your items to make sure they work with your décor and will return what doesn't.

### Complete Customization:

Why settle? Many of our brands allow you to create a piece to fit your exact specifications. Our sofas and sectionals offer hundreds of choices in color and fabric and our dining room sets give you a choice of wood, color, and style.
